Morning care

Let parents share today's last diaper, bottle, and nap before preschool. Staff can see what happened at home.

TURN IT ON IN THE ADMIN DASHBOARD

Before you start: ask Bloomily to enable Morning care for your center.

1. Open Today.
2. Under Rooms right now, select a classroom.
3. Select Edit room.
4. Under Parent morning care, check Morning care from home.

5. Select Save room. Repeat for each classroom that will use it.

RULES AND LIMITATIONS

Access: The child must be assigned to an enabled classroom. Parents need full access to that child.

Check-in: Parents can add or change entries until the first check-in that day. Entries are read-only afterward.

Staff records: Home entries do not create classroom activities or daily reports, or reset staff care reminders.
